

ART EXHIBITION

Rachel Francis – Artist

Biography

I am an Artist / Designer based in Portishead, where I have lived for 20 years. I began my design career with an Honours degree in Interior Design in 1988. I then joined an Architects practice in Cheltenham, after which I worked for a small Interiors company based in Bristol. I became freelance in 1993 and since then have worked successfully on a great variety of projects, both commercial and domestic. In recent years I have turned my attention back to my love of drawing and painting.

Through my work I hope to capture the ever changing visual drama of the local coastal landscape. At present I work predominantly in acrylic on board. My work is available framed or unframed in a range of sizes and prices start from £350. Commissions of any size/subject also undertaken.
